Hi Everyone! Thank you for the helpful comments thus far. I feel as though your edits will help me tell a better story through the memo. Just a reminder that I will be making final edits tomorrow, so any additional comments by then will be much appreciated. Attached is an updated version.

As always, thank you for all of your help,

Jillian Adair

Subject: Chesapeake Bay Toxic Contaminant Project

Hi All,

I've been working on a project for the Chesapeake Bay Toxic Contaminant Workgroup to document how PCB TMDLs within the watershed are incorporated into NPDES permits. The attached memo introduces the project and details my findings. Micka and I are hoping to send it to Greg Allen, but first wanted to receive input from the TMDL group. I'm hoping to begin the final edits by November 3rd, so any comments before then would be much appreciated!

Thanks for your help,

Jillian Adair
